As to the requirement for election of a single species of the species, identified by the Examiner as, Species I - species drawn to Figures 1 - 22, drawn to the components of the optical measurement and brain wave measurement apparatus functioning as a living body information signal processing and display device; and Species II - species drawn to Figures 23 - 29, drawn to a structural components, attachment positions, and coupling material of the common holder of the probe device; applicants elect Species I, the species drawn to Figures 1 - 22, and submit that claims 1 - 15 are readable on the elected species.

As recognized by the Examiner, claim 1 is generic, such that applicants submit that upon allowance of claim 1, claims directed to other species and dependent upon claim 1, should be considered and found allowable.
